message:

Dear Sir/Madame

Re: Architects Inquiry.

I am writing expressing my concern that the registration of Architects be retained throughout Australia and be governed by a uniform Act administered by local State. or Territory Boards.

I believe that this is the most effective way to protect the clients of Architects by providing a system whereby complaints can be addressed and disciplinary action taken if appropriate. This model is used in the Medical Profession and the Legal Profession and is regarded by many as being effective.

Yours faithfully

Finn Pedersen
