Dear Lisa

Presentation

Thank you for the opportunity to present next week to the commissioners on this very important issue.

The key points I would like to make in the presentation are:

- I concur entirely with the recommendation to de-regulate the "architectural industry".
- that the alternative consumer proposal for stricter regulations has the same inherent problems as the current system and is inferior to structural change;
- potential reason for limited consumer response to the inquiry;
- problems for small consumer's if the recommendation is not implemented; and
- economic reasons why architects do not want change,

Afterwards I would be happy to take questions or discuss the issue.

Yours sincerely,
