## Chapter 6: Court administration

This chapter covers the performance of court administration for State and Territory supreme, district/county and magistrates' (including children's) courts, electronic courts, coroners' courts and probate registries. It also covers the performance of court administration for the Federal Court of Australia, the Federal Magistrates Court, the Family Court of Australia and the Family Court of WA. The focus of this Report is on the administration of the courts, not the outcomes of legal processes.

Court administration agencies throughout Australia provide a range of services integral to the effective performance of the judicial system. The primary functions of court administration agencies are to:

- manage court facilities and staff, including buildings, security and ancillary services such as registries, libraries and transcription services
- provide case management services, including client information, scheduling and case flow management
- enforce court orders through the sheriff's department or a similar mechanism.
